This value-packed, action-oriented program is designed to help you, a self-employed professional, entrepreneur, or small business owner get more clients and more revenue from the ones you have.

And more... it's designed to truly help you to turn what you love into a thriving business that contributes value to all involved.

Finally—**it's about freedom!** The freedom 'to' be, do, and have what you want. As well as the freedom 'from' - from working for your business instead of the other way around.

But let's face it... there is no shortage of information on business development (sales, marketing, and strategy) in the marketplace. **What makes this program different?**

1. **Expertise:** 30 years of working with entrepreneurs gives us insights into their unique nature—what they will and won't do—and what approaches really work.

2. **Integration:** A powerful combination of training, coaching, and 1:1 mentoring that gives you innovative theories, new skills, and the support needed to apply all that know-how to your business so you can create Positive Results!

I worked on growing my business for 7 years... and was still basically making less than I would have at my previous career.

After hiring Jannette as my business coach Prairie Sun grew 320% in just over two years. I went from being a web-designer with one part-time graphic designer to having a full-service, marketing solution firm with a suite of over 30 creative and technical experts who now work on \$100,000+ projects.

Because of our work together, I have the freedom to move on to creating another company in the area of my other true passion—the environment.

WHO IS ELIGIBLE TO APPLY

Part of what makes this program so successful is that it is a serious process for serious people who want **serious results**. Don't worry, we also have fun and enjoy the journey; but only those committed to achieving a quantum leap in their business will be accepted.

Acceptance criteria:

- ✓ Willingness and ability to complete the entire program, all assignments, and participate 100%.
- ✓ Completion of a business diagnostic to determine your 'growth-readiness' and help us better understand your requirements. (Note: we do accept a few new start-ups for each program but you must have some previous entrepreneurial experience).
- ✓ Completion of an initial "fit" meeting—to see if we are a good match. We'll be working together extensively over the year so mutual rapport helps.
- ✓ Class sizes are very limited to ensure quality attention to your needs.
- ✓ We endeavor to create a balance of skills and complimentary participant strengths in each program.

CREATING POSITIVE RESULTS

This powerful eight month program is designed to take your business from where it is now to where you want it to be. Why such a long time? Yes, you could learn the concepts in a matter of months... but if it was simply a matter of knowing more information you could read a few books and see results. Has that worked yet?

If you're like most business owners it's more about:

- ✓ Applying what you know—consistently
- ✓ Accessing an objective perspective—fresh eyes
- ✓ Having support for focusing on your strengths and putting strategies in place to delegate or dump the work that you shouldn't be doing. Re-experience the joy of doing only what you love!
- ✓ Reconnect with why you wanted to go into business in the first place. Success facilitates freedom.
- ✓ If you're starting out—save years of time, and thousands of dollars by not learning the hard way! **Let our experience help you avoid the pitfalls and achieve results faster.**
